EXPERIENCE

Web Consultant, 2018 - Present

Freelance | Ann Arbor, MI

Delivered consultative web services in information architecture, content layout and user experience best practices to help client's achieve a holistic design vision and optimal customer experience.

Designed, developed, have launched and continue to maintain 10+ websites for small and medium-size businesses and nonprofits.

Created all prototypes, established UI design direction and led front-end development for a client's web-based, proprietary, project management application.

Collaborated with a cross-functional team to deliver the front-end framework for a client's mobile gamification application.

Facilitated the re-skin and relaunch of a client's newly developed website. Addressed issues to increase engagement associated with the initial roll out and executed all front-end development.

Web Developer, 2016 - 2018

Unbridled Solutions | Denver, CO

Founding member of the Unbridled Development Team, leading the design and development of 30+ client websites and other digital service offerings while creating and refining processes and procedures for team project management.

Led client meetings to discern project needs, presented design iterations, incorporated feedback and provided user training.

Collaborated cross-functionally with developers, designers, project managers, account managers and company leadership to deliver a cohesive, multifaceted product to the client.

Project Coordinator, 2012 - 2016

Johnson Controls | Denver, CO

AmeriCorps, 2010 - 2012

Mile High Youth Corps | Denver, CO
